Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Reissue Applications

1. This application is in condition for allowance except for the following formal matters:

The patent's specification was corrected by a Certificate of Correction issued August 03, 1999. In the reissue application, however, applicant improperly amended the specification to incorporate the same changes made in the Certificate of Correction. See Preliminary Amendment A, filed March 08, 2001, Paper #6. The amendment is improper because the Certificate of Correction is part of the original patent. Therefore, those changes must not be bracketed or underlined in the reissue application. Otherwise, the changes will appear in the reissued patent with brackets or italics erroneously indicating changes from the original patent. See MPEP 1411.01.

Further, to cure this defect, the specification must be amended to remove bracketing and underlining of the text added by the Certificate of Correction (i.e., replacement paragraphs incorporating the changes of the Certificate of Correction without bracketing or underlining.

2. This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

According to USPTO records, the patent on which the reissue is based (U.S. Patent 5,875,745) was assigned to Indian Ocean Medical Inc. on October 29, 2004. Therefore, written consent from the assignee for the filing of the reissue application.

3. This application is objected to under 37 CFR 1.172(a) as the assignee has not established its ownership interest in the patent for which reissue is being requested. An assignee must establish its ownership interest in order to support the consent to a reissue application required by 37 CFR 1.172(a). The assignee's ownership interest is established by:

(a) filing in the reissue application evidence of a chain of title from the original owner to the assignee, or

(b) specifying in the record of the reissue application where such evidence is recorded in the Office (e.g., reel and frame number, etc.).

The submission with respect to (a) and (b) to establish ownership must be signed by a party authorized to act on behalf of the assignee. See MPEP § 1410.01.

An appropriate paper satisfying the requirements of 37 CFR 3.73 must be submitted in reply to this Office action.

4. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

The nature of the defect is set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
